From Moldy to Healthy with Dr. Marlene Merritt

Biotoxins may be the root cause for the complex patient that has seen a multitude of practitioners with no real success but has been given labels like Fibromyalgia, Chronic Fatigue Syndrome, or many other others. Chronic Inflammatory Response Syndrome (CIRS) encompasses multiple biotoxin vectors, and we will be discussing the one responsible for more than 80% of CIRS patients – water-damaged buildings and the immune response and dysregulation that can occur when exposed to mold and fungal fragments.

This 3-hr seminar will highlight:

- The screening process and tests to determine if a patient has CIRS, as per Shoemaker Protocol
- What to look for in water damaged buildings, including proper testing and inspection
- Discuss the treatment of CIRS and what can be done to support a patient with CIRS

The seminar handouts will include:

- + 3-to-a-page and full slide notes
- + Practical protocol recommendations
- + Assessment tools to use with patients
- + Reference sheet for literature review

From Moldy to Healthy will be hosted on

Saturday, January 23rd – 8am-11am PST / 11am-2pm EST

Tickets for this live, one-time seminar are available for \$69. As an attendee, you may purchase a recording of this live seminar for an additional \$10 for a limited time after the event. Past Live Virtual Seminars will be listed on our website as Archived Events for \$99.

Getting to Know Dr. Marlene Merritt:

- **What is your modality and how long have you been in practice?** I am a Doctor of Oriental Medicine and have been in practice for over 20 years! We practice all online now, but located in Austin, TX and Santa Fe, NM.
- **What is unique about what you do?** We practice Functional Medicine, Nutrition, specializing in Mold Illness, Diabetes.
- **How does nutrition support you in helping get people well?** When you can show people that it is possible to reverse diabetes using diet alone, you can change the direction of medicine — and people’s health — TODAY!
- **When not in practice...** I, along with my husband – Dr. Will Mitchell, love to hike, ride bikes, eat good food, and read books. We study a lot, as well — there’s always more to learn.

Continuing Education Credits Offered Through SOW Nutritional Systems, LLC.

It is the responsibility of the practitioner requesting continuing education for relicensure to reference their individual state’s by-laws and to confirm seminar acceptance by their state examining board.

It’s important and critical that you be on time and engaged throughout the virtual seminar as your attendance and participation is tracked throughout the event. Please note the time and account for your individual time zone.
