Neuroinflammation and Complex Brain Disorders

with Dr. Bob Scott

Neuroinflammation is a chronic inflammation of the central nervous system and has long been studied for its connection to the development and progression of Multiple Sclerosis. However, new research is increasingly finding that not only are many cognitive disorders such as Alzheimer’s and other forms of dementia related to neuroinflammation, but classic mental diseases such as schizophrenia, bipolar and depression, as well as autism, may also be connected to brain inflammation.

This 3-hr seminar will highlight:

- An overview of neurogenesis and proper brain nutrition along with the review of the current scientific understanding of the relationship between gut health and brain health
- How Neuroinflammation impacts brain health and the development of dementia, anxiety, and depression with an introduction of the metabolic and toxic threats to the brain
- An overview of functional medicine testing for brain health to support developing an appropriate protocol for every case

The seminar handouts will include:

- + 3-to-a-page and full slide notes
- + Practical protocol recommendations
- + Assessment tools to use with patients
- + Reference sheet for literature review

Neuroinflammation and Complex Brain Disorders will be hosted on Saturday, February 6th – 8am-11am PST / 11am-2pm EST

Tickets for this live, one-time seminar are available for \$69. As an attendee, you may purchase a recording of this live seminar for an additional \$10 for a limited time after the event. Past Live Virtual Seminars will be listed on our website as Archived Events for \$99.

Use your smart phone to view the QR code and go directly to our website for more details on our Virtual Seminars!

Getting to Know Dr. Bob Scott:

- **What is your modality and how long have you been in practice?** I am a Naturopathic Doctor that has been in practice since 2007 and I am currently located in Hampton, New Hampshire.
- **What is unique about what you do?** For the past decade I have also had the unique experience of also speaking and educating on behalf of the Standard Process and MediHerb communities here in the United States and in Canada. In addition, I am a graduate of the Nutrition Response Testing (NRT) and certified as an Applied Clinical Nutritionist (ACN).
- **How does nutrition support you in helping get people well?** Nutrition has always been the focus of my practice. However, I recently shifted my practice to NRT which has allowed me to get to the root cause of people's complaints so much more easily. Combining NRT with nutrition has been a game changer for my patients allowing me to combine traditional know how with current scientific understanding.
- **When not in practice...** I am on the beach or a trail with my best buddy Cooper, enjoying the great outdoors, or trying new recipes on my pellet grill.

Continuing Education Credits Offered Through SOW Nutritional Systems, LLC.

It is the responsibility of the practitioner requesting continuing education for relicensure to reference their individual state's by-laws and to confirm seminar acceptance by their state examining board.

It's important and critical that you be on time and engaged throughout the virtual seminar as your attendance and participation is tracked throughout the event. Please note the time and account for your individual time zone.
