About Dave Hogsed:

- **How long have you been in practice?** I've been an Acupuncture Physician for 21 years practicing in Fort Myers, FL.
- **What's unique about what you do?** My specialty is combining clinical nutrition and herbal therapies with pulsed electromagnetic field therapy (PEMF) for optimal pain relief and healing.
- **How does nutrition support you in helping people?** Nutrition is the foundation of my practice. The modern patient presents with the „perfect storm“ of dietary deficiencies, stress overload, and increasing toxin exposure. Standard Process and MediHerb supplements are the most important tools in my arsenal for helping patient's regain and maintain their health.
- **When not in practice...** I have the incredible privilege of speaking for Standard Process. Meeting like minded practitioners across the country who share a passion for clinical nutrition always re-energizes me. I also enjoy being a terrible tennis player!
